

Trade show announcement

DKSH to showcase innovative equipment at the SEMICON China trade show

DKSH, the leading Market Expansion Services provider with a focus on Asia, will team up with renowned suppliers of semiconductor and scientific instrumentation to promote a wide range of exciting brands, products and innovations at the SEMICON China trade show.

Shanghai, China, March 9, 2018 – DKSH's Business Unit Technology, a leading Market Expansion Services provider and distributor of semiconductor equipment, together with its key clients Tango, Microtrac and Biolin will jointly exhibit at the SEMICON China trade show. The event, which connects the world's fastest-growing and most dynamic microelectronics industry professions to showcase their products, technologies and brands will be held at the Shanghai New International Expo Center on March 14-16, 2018.

DKSH will exhibit at stand N5 - 5647, where senior executives, sales representatives and our key clients Tango, Microtrac and Biolin will promote innovative products dedicated to the semiconductor industry.

- Tango's PVD systems are mainly used in markets and applications, such as EMI Conformal Package Shielding, Fan Out Wafer and Panel Level, Advanced Packaging (Bumping, UBM, RDL, TSV), LED, MEMS and Power Devices. The product portfolio includes:
 - Axcela: Axcela™ system offers an easily scalable design, allowing the customer to select the most flexible, cost-effective design for a given application
 - Onyx: Onyx is Tango's greatest low-cost innovation for low volume production and R&D applications. It uses only a single PVD chamber and a Load Lock/Transfer Chamber
 - Topaz: Tango's Topaz platform demonstrated capabilities for organic and glass Interposers on rectangular substrates
- Microtrac's particle size and shape analyzer provides total solutions in particle characterization. Its innovative, reliable and repeatable particle size, shape and charge instrumentation focuses on markets and applications of semiconductor PMC, LED, wafer and panel process
- Biolin's contact angle measurement and tension meter offers leading contact angle and surface tension solutions for semiconductor industrial quality control and R&D as well as for academic research. The core of Biolin Attension solutions is a combination of easy-to-use, smart instrumentation with broad surface science capabilities

Oliver Hammel, Managing Director Business Unit Technology, DKSH China, commented: "It is great to partner with our most innovative clients to participate in the SEMICON exhibition. Thanks to our unmatched Asian footprint, we can leverage our scale, experience and industry know-how to provide tailored solutions that deliver maximum value for our customers. We look forward to introducing latest technologies to potential customers at the exhibition in Shanghai."

About DKSH

DKSH is the leading Market Expansion Services provider with a focus on Asia. As the term "Market Expansion Services" suggests, DKSH helps other companies and brands to grow their business in new or existing markets. Publicly listed on the SIX Swiss Exchange since 2012, DKSH is a global company headquartered in Zurich. With 825 business locations in 37 countries – 800 of them in Asia – and 31,970 specialized staff, DKSH generated net sales of CHF 11.0 billion in 2017. DKSH was founded in 1865. With strong Swiss heritage, the company has a long tradition of doing business in and with Asia and is deeply rooted in communities and businesses across Asia Pacific.

Think Asia. Think DKSH.

DKSH Business Unit Technology is the leading provider of Market Expansion Services covering a broad range of capital investment goods and analytical instruments. The Business Unit offers total solutions in the areas of infrastructure, industrial materials and supplies, precision- and textile machinery, semiconductor, photovoltaic and electronics, agriculture, hospitality as well as specialized industrial applications. The service portfolio includes product sourcing, market entry consultancy, marketing, sales, application engineering and after-sales services like installations, maintenance and repairs. With 75 business locations in 18 countries and around 1,250 specialized staff, including 500 service engineers, Business Unit Technology generated net sales of CHF 404.2 million in 2017.
