

Trade show announcement

## **DKSH promotes solutions for high tech industry at the SEMICON Taiwan 2018**

**DKSH Business Unit Technology, a leading Market Expansion Services provider for technology companies seeking to grow their business in Asia, will promote a diverse collection of imported equipment, instruments, software and consumables for semiconductor and electronics industries at the SEMICON Taiwan 2018 trade show from September 5 to 7, 2018.**

Taipei, Taiwan, August 30, 2018 – DKSH's Business Unit Technology, a leading Market Expansion Services provider for technology companies seeking to grow their business in Asia, will present a diverse collection of semiconductors and electronics-related products at the SEMICON Taiwan 2018 trade show. The event will take place in Taipei Nangang Exhibition Center from September 5 to 7, 2018. DKSH will exhibit at booth N992 – 4F.

DKSH provides industry expertise and technical solutions for the highly specialized semiconductor manufacturing, photovoltaic and electronics device industries. Our product portfolio includes:

- Equipment
- Instrumentation
- Consumables
- Spare parts
- Process auxiliaries

At the trade show, DKSH Taiwan specialists will feature products from the following international well-known clients and provide professional consultations to help companies find the solutions that best fit their needs:

- **NAURA Technology Group:** A high-end semiconductor equipment provider for global customers with a marketing service system covering major countries and regions in Europe, America and Asia
- **Borer Chemie:** a leading supplier of products and technologies for ophthalmic glass cleaning, flat panel display cleaning, laboratory glassware cleaning and instrument reprocessing. To date Borer has expanded its service to 60 more countries and is seen as the best solution for aqueous cleaning and disinfection (ISO 9001, ISO 13485)
- **Smart Equipment Technology:** a world leading supplier of high accuracy die bonders/flip chip bonders and versatile nanoimprint lithography solutions
- **PEER Group:** A factory automation software products and services provider with the largest portfolio to high-volume manufacturers and equipment makers in the semiconductor, photovoltaics and electronics industries
- **Frontier Semiconductor:** the leading manufacturer of stress measurement tools, offering a range of advanced metrology products and solutions for semiconductor, MEMS, optoelectronic, and flat panel applications
- **Second Semtest:** a Japanese company that specializes in developing and manufacturing semiconductor test equipment. The company builds and supports some of the highest performance test equipment of power semiconductor devices and modules
- **Agilent Technologies:** a leading brand for vacuum pumping systems that offers product line ranging from reliable vacuum pumps for development purposes and stable vacuum systems for industrial process to efficient instruments for leak detection solutions

Weilun Tsao, Managing Director, Business Unit Technology, DKSH Taiwan, stated: "DKSH is proud to showcase the advanced solutions and the international clients that we represent to the semiconductor and electronics industries in Taiwan. With strong product knowledge and technical support, we look forward not only to provide suitable products to fulfill companies' needs, but also to provide after-sales services to support our customers' long-term success."

**Think Asia. Think DKSH.**

**About DKSH**

DKSH is the leading Market Expansion Services provider with a focus on Asia. As the term "Market Expansion Services" suggests, DKSH helps other companies and brands to grow their business in new or existing markets. Publicly listed on the SIX Swiss Exchange since 2012, DKSH is a global company headquartered in Zurich. With 825 business locations in 37 markets – 800 of them in Asia – and 31,970 specialized staff, DKSH generated net sales of CHF 11.0 billion in 2017. DKSH was founded in 1865. With strong Swiss heritage, the company has a long tradition of doing business in and with Asia and is deeply rooted in communities and businesses across Asia Pacific.

**DKSH Business Unit Technology** is the leading provider of Market Expansion Services covering a broad range of capital investment goods and analytical instruments. The Business Unit offers total solutions in the areas of infrastructure, industrial materials and supplies, precision- and textile machinery, semiconductor, photovoltaic and electronics, agriculture, hospitality as well as specialized industrial applications. The service portfolio includes product sourcing, market entry consultancy, marketing, sales, application engineering and after-sales services like installations, maintenance and repairs. With 75 business locations in 18 markets and around 1,250 specialized staff, including 500 service engineers, Business Unit Technology generated net sales of CHF 404.2 million in 2017.
