HBM Healthcare Investments and HBM Partners donate protective equipment for emergency hospitals in Switzerland

HBM Healthcare Investments and HBM Partners are making a small but important contribution to the management of the COVID-19 pandemic in Switzerland. Through contacts with the leading Chinese online pharmacy Jianke Pharmaceutical (www.jianke.com), the two companies were able to procure protective suits and medical face masks for emergency hospitals in Switzerland. HBM Healthcare Investments has held a stake in Jianke since 2018. The material was transported from China to Switzerland with the support of the Swiss Government and the Swiss Army.

HBM Healthcare Investments and HBM Partners donate the equipment to the Swiss Government.
