Slide ahead in 5G

Chip & Memory

- Qualcomm[®] Snapdragon[™] 855 - 8x Qualcomm® Kryo™ 485 CPU
- Up to 2.84GHz clock speed
- Qualcomm® Adreno™ 640 GPU - Qualcomm[®] Snapdragon[™] X50 5G modem
- Rogers[®] HeatSORB[™] thermal technology
- Stacked Graphite Sheet heat pipe
- 6GB + 64GB, 6GB + 128GB UFS 2.1
 - LPDDR4x

Display

- 6.39" 19.5:9 Samsung OLED display
 - 2340 x 1080 resolution - 403 PPI, HDR
 - 430nit (max) brightness - 60000:1 contrast ratio
 - Color gamut: 103.8% NTSC
 - Corning® Gorilla® Glass 5

Design

- Four-sided curved ceramic design
- Full Screen Slider
- 7000-series aluminum frame
- 157.89 x 74.69 x 9.4mm, 225g
- Onyx Black, Sapphire Blue*

Rear Camera

- Primary: 12MP Sony IMX363
 - 1.4µm large pixels, Dual Pixel Autofocus
 - f/1.8, 4-axis OIS
 - 60 fno 11 vidos 060 fno dow motion vidos

Qualcomm[®] Snapdragon[™] 855, 5G ready

Inside Mi MIX 3 5G is the newly crowned Qualcomm[®] Snapdragon™ 855 flagship SoC. Built using the latest 7nm technology, this powerful platform with single core performance incorporates eight Qualcomm® Kryo™ 485 cores, 45% faster than the previous generation. The all-new Qualcomm® Adreno™ 640 GPU has increased performance of 20%, and its Al capabilities improved by a further 300%. Most importantly, Mi MIX 3 5G features the Qualcomm[®] Snapdragon™ X50 5G modem, making it one of the world's first smartphones to support 5G mobile networks.

World-class photography

Mi MIX 3 5G sports the Mi MIX 3 12MP + 12MP rear dual camera, which received a DxOMark photo score of 108, and comes with many awesome Al features and 960 fps slow-motion video capture. For selfies, Mi MIX 3 5G offers a hidden 24MP + 2MP dual camera setup, making great use of Sony's IMX576 sensor to capture more detail than ever before. Additionally, the improved AI performance of Qualcomm[®] Snapdragon™ 855 allows Mi MIX 3 5G to render software effects faster and more efficiently.

Highly-effective hybrid cooling solution
